

UPPER ELEMENTARY

What is going to be different next year?

PARENTS NEED TO KNOW

In January 2011, a 5/6 Visioning Work Group, made up of mostly 5/6 teachers, began reviewing the upper elementary teaching approach and implementation of the schedule to determine what is working and what needs work for next year.

The Work Group will be presenting their approved recommendations and gathering parent reactions and input on Tuesday, May 31. If your child is a current upper elementary student or fourth grader who will be entering the upper elementary school next year, take this opportunity to find out what may be different for your student next year.
